Puppies don't stay little for long!

They grow! Some puppies grow to be less than a foot tall as adults. Others can grow many feet tall and weigh nearly 200 pounds. Carefully choose which breed of dog you want as your next best friend. Take the time to pick a breed that suits your environment and lifestyle.

Before you buy a dog, do your research! Find out about 150 AKC recognized breeds at www.akc.org.
